How the Wave card works:

Tap and Go:

Just tap your card on the Wave card reader each time you board the bus.

Save as You Ride

Riding The Rapid with your Wave card automatically earns you the savings of a Day and Month passes, but without the upfront cost or commitment. You'll pay your way one trip at a time and never pay for trips not taken.

- **Day pass:** Earn after riding twice in one day (spending a total of \$3.50).
- **Month pass:** Earn after spending \$47 between the first and last days of a calendar month.

If you purchase a reloadable 10-Ride Wave card, you will not have access to the pay-as-you-go savings of fare capping. You will receive 10 rides at the price of \$13.50. 10-Ride Wave cards cannot be auto-loaded.

Hassle-Free Transfers

With a Wave card, you have a built-in transfer with each ride. The built-in transfer timeframe is 1 hour and 45 minutes and begins with your first tap. This means that you have 1 hour and 45 minutes to ride anywhere in the system, even on the same route! Your first tap will charge a normal fare to your account. Subsequent taps within transfer timeframe will not charge your account.
