## Help Your Child Succeed in Preschool and Kindergarten

### Build the Habit of Good Attendance

#### DID YOU KNOW...

Make the most of early grades by encouraging your child to attend every day.

#### WHAT YOU CAN DO

Lay out clothes and pack backpacks the night before.

Visit Attendance Works at [www.attendanceworks.org](http://www.attendanceworks.org) for free downloadable resources and tools!

### First Aid: Animal Bites

These guidelines can help you care for a minor animal bite, such as one that only breaks the skin:

- Wash the wound thoroughly with soap and water.
- Stop any bleeding by applying pressure with a clean cloth or towel.
- Cover the bite with a clean bandage. Keep the bandage on until the wound forms a scab. Change the bandage if it gets dirty.

Seek medical care if:

- The wound is deep or you're not sure how serious it is
- The skin is badly torn, crushed or the bleeding won't stop.
- You notice signs of infection, such as swelling, redness, pain or oozing.
