REMINDER

Reminder to send your child with tennis shoes and not sandals or flip flops. Our playgrounds are covered in woodchips and we want to keep them safe.

VERY HUNGRY CATERPILLAR™

Ask your child about the caterpillars that are living in their classroom!

What is a Chrysalis?

What are their stages of life?

What do they eat?

What are their names?

First Aid: Animal Bites

These guidelines can help you care for a minor animal bite, such as one that only breaks the skin:

- Wash the wound thoroughly with soap and water.
- Stop any bleeding by applying pressure with a clean cloth or towel.
- Cover the bite with a clean bandage. Keep the bandage on until the wound forms a scab. Change the bandage if it gets dirty.

Seek medical care if:

- The wound is deep or you're not sure how serious it is
- The skin is badly torn, crushed or the bleeding won't stop.
- You notice signs of infection, such as swelling, redness, pain or oozing.
